**Giacomo Agostini** - Giacomo Agostini 2013-12-01
Fifteen world championships in the 350 cc and 500 cc classes, 18 Italian national titles (175, 250, 350 and 500 cc), 311 victories in world championship races of which 123 were world championship counters and 10 wins in the legendary TT. That is the incredible record of Giacomo Agostini, achieved between 1962, the year in which he won his first race at Bologna-San Luca on a Morini Settebello, and 1977 when he took the win at Hockenheim on a Yamamoto in the 750 cc class. Agostini – just about everyone calls him Ago – was the greatest racing motorcyclist ever, and today he has decided to review his magnificent career again by bringing together the greatest, most significant photographs of his life in a book. The debut on the Morini, the golden years with MV and the less dazzling period with Yamaha, his experience as a team manager as well as his family, friends and his fleeting appearance on four wheels; these are the chapters that comprise this work, which has never previously been attempted.

**The Hanoverian Dimension in British History, 1714-1837** - Brendan Simms 2007-02-08
For more than 120 years (1714–1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.

Directed by Steven Spielberg - Warren Buckland 2006-05-02 Although the blockbuster is the most popular and commercially successful type of filmmaking, it has yet to be studied seriously from a formalist standpoint. This is in opposition to classical Hollywood cinema and International Art cinema, whose form has been analyzed and deconstructed in great detail. Directed By Steven Spielberg fills this gap by examining the distinctive form of the blockbuster. The book focuses on Spielberg's blockbusters, because he is the most consistent and successful director of this type of film - he defines the standard by which other Hollywood blockbusters are judged and compared. But how did Spielberg attain this position? Film critics and scholars generally agree that Spielberg's blockbusters have a unique look and use visual storytelling techniques to their utmost effectiveness. In this book, Warren Buckland examines Spielberg's distinct manipulation of film form, and his singular use of stylistic and narrative techniques. The book demonstrates the aesthetic options available to Spielberg, and particularly the choices he makes in structuring his blockbusters. Buckland emphasizes the director’s activity in making a film (particularly such a powerful director as Spielberg), including: visualizing the scene on paper via storyboards; staging and blocking the scene; selecting camera placement and movement; determining the progression or flow of the film from shot to shot; and deciding how to narrate the story to the spectator. Directed By Steven Spielberg combines film studies scholarship with the approach taken by many filmmaking manuals. The unique value of the book lies in its grounding of formal film analysis in filmmaking.

Disappearing Tricks - Matthew Solomon 2010 Disappearing Tricks revisits the golden age of theatrical magic and silent film to reveal how professional magicians shaped the early history of cinema. Where others have called upon magic as merely an evocative metaphor for the wonders of cinema, Matthew Solomon focuses on the work of the professional illusionists who actually made magic with moving pictures between 1895 and 1929. The first to reveal fully how powerfully magic impacted the development of cinema, the book combines film and theater history to
uncover new evidence of the exchanges between magic and filmmaking in the United States and France during the silent period. Chapters detailing the stage and screen work of Harry Houdini and Georges Méliès show how each transformed theatrical magic to create innovative cinematic effects and thrilling new exploits for twentieth-century mass audiences. The book also considers the previously overlooked roles of anti-spiritualism and presentational performance in silent film. Highlighting early cinema's relationship to the performing body, visual deception, storytelling, and the occult, Solomon treats cinema and stage magic as overlapping practices that together revise our understanding of the origins of motion pictures and cinematic spectacle.

Martha Peake-Patrick McGrath 2011-01-05 Master storyteller Patrick McGrath–author of the critically acclaimed novel Asylum and a finalist for England's prestigious Whitbread Prize for fiction–once again spins a hypnotic tale of psychological suspense and haunting beauty. Set among the teeming streets and desolate wharves of Hogarth's London, then shifting to the powder-keg colony of Massachusetts Bay, Martha Peake
envelops the reader in a world on the brink of revolution, and introduces us to a flame-haired heroine who will live in the imagination long after the last page is turned. Settled with our narrator beside a cracking fire, we hear of the poet and smuggler Harry Peake--how Harry lost his wife, Grace, in a tragic fire that left him horribly disfigured; how he made a living displaying his deformed spine in the alehouses of eighteenth-century London; and how his only solace was his devoted daughter, Martha, who inherited all of his fire but none of his passion for cheap gin. As the drink eats away at Harry's soul, it opens ancient wounds; when he commits one final act of unspeakable brutality, Martha, fearing for her life, must flee for the American colonies. Once safely on America's shores, Martha immerses herself in the passions of smoldering rebellion. But even in this land of new beginnings, she is unable to escape the past. Caught up in a web of betrayals, she redeems herself with one final, unforgettable act of courage. Superbly plotted and wholly absorbing, Martha Peake is an edge-of-your-seat shocker that is crafted with the psychological precision Patrick McGrath's fans have come to expect. A writer whose novels The New York Times Book Review has called both "mesmerizing" and "brilliant," McGrath applies his remarkable imaginative powers to a fresh and broad historical canvas. Martha Peake is the poignant, often disturbing tale of a child fighting free of a father's twisted love, and of the colonists' struggle to free themselves from a smothering homeland. It is Patrick McGrath's finest novel yet.

Castellotti. A stolen heart-Castellotti-Cesare De Agostini 2002-09 A driver of great courage, a young man full of life generous: Eugenio Castellotti lived just 26 years and five months - not much more than James Dean - and was a symbol of a love of motor racing, of challenge and risk. A victory of heart over reason was what they called his greatest success, the 1956 Mille Miglia win and it is to the beat of his heart that most of his brief existence is inexorably linked. A life which, for the first time, has been reconstructed after vast detailed research and is now a new book, published simultaneously by Giorgio Nada Editore in two versions, Italian and English. The author is Cesare De Agosini, one of the best-known motor sport writers, who has also given us the biographies of Tazio Nuvolari, Gilles Villeneuve and Clay Regazzoni, three authentic best sellers. His elegant writing style, rich with poetic inflection, goes well the mere chronological reconstruction of Castellotti's life.
He digs deep into the soul of the man, to enable the reader to participate not only in the facts but also the feelings, the passions, the emotions of this young man. This new book is complemented by an extraordinary collection of photographs, brought together by Gianni Cancellieri: beautiful pictures, many of them unpublished, that come from private collections and some of the most prestigious archives in Europe and America.
